

SPEAKER : HS-1250T

The HS-1250T is a high-performance horn speaker designed with a durable aluminum body, making it both lightweight and weatherproof, ideal for outdoor and indoor installations. Featuring a 12-inch round flare, it ensures clear voice delivery across long distances. Its robust voice coil design minimizes the risk of breakage, providing reliable performance in demanding environments.

Applications

Perfect for houses of worship, car parks, open areas, schools, industrial facilities, and sports venues where clear and reliable sound distribution is essential.

Specification:-

	HS-1250T
Rated Output	50watt
Frequency Response @ 1khz	300hz - 6.5khz
Sensitivity @ 1w/m @ 1khz	109dB
Tapping (100v Line)	50W/25W/12.5W/6.25W
Primary Impedance of Tapping(Ohm)	200Ω / 400Ω / 800Ω / 1600Ω
Secondary Impedance(Ohm)	8ohm
Material	Alluminium
Overall Size	1384mm(H) x 227mm(W) x 125mm(D)
Weight	12.5KG
