

2-Way Fullrange Box Speaker

SPEAKER : WM-640S

The WM-640S is a compact 2-way bass-reflex speaker with a wide frequency range, making it ideal for both announcements and music playback. It's designed for versatility, accommodating both high-impedance and low-impedance setups. The speaker also features rotary power selection, allowing you to easily adjust the power output to suit the installation space's specific needs.
